

## GOVERNMENTS QUARTERLY REPORT

# Quarterly Summary of Federal, State, and Local Tax Revenue

## January-March 1987

U.S. Department of Commerce  
BUREAU OF THE CENSUS

GT87 No. 1  
Issued July 1987

Tax collections of Federal, State, and local governments totaled \$879.6 billion during the 12 months ended with March 1987, an increase of 6.5 percent from the amount collected during the 12 months ended March 1986. Federal tax collections were \$490.0 billion, up 6.5 percent during this period. State tax collections totaled \$238.9 billion, up 5.9 percent this period, and local government taxes amounted to \$150.7 billion, an increase of 7.3 percent. The table below provides a summary by type of tax for the 12 month periods ending March 1987 and March 1986.

During the first quarter of calendar 1987, collections of Federal, State, and local taxes amounted to \$216.8 billion. Compared to the corresponding quarter of 1986, this is an increase of \$18.5 billion or 9.3 percent.

National totals, Federal, State, and local are shown in table 1. Federal government amounts are shown in table 2, and State and local government amounts are in table 3.

Table 4 reports local collections of property taxes for selected local areas. It should be noted that the amounts shown in table 4 are not limited to locally imposed property taxes, but are intended to include any amounts of State-imposed property taxes collected on behalf of the State by local government offices. Such an arrangement applies in at least 22 States.

### CONCEPTS AND TERMINOLOGY

In this report the concept of "taxes" is comprised of all compulsory contributions exacted by a government for public purposes, except employer and employee assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. Outside the scope of this report, accordingly, are collections for the unemployment compensation "taxes" imposed by each of the State governments and the District of Columbia and for social insurance taxes (social

## QUARTERLY TAX REPORT

security, disability insurance, civil service retirement, etc.) imposed by the Federal Government. During the first quarter of 1987 these Federal "taxes" amounted to \$73.9 billion. (See appendix B.) Included, however, are all receipts from licenses and compulsory fees, including those that are imposed for regulatory purposes as well as those designed to provide revenue.

Tax revenue is defined to include related penalty and interest receipts, but to exclude protested amounts and refunds. The deduction from gross collections of amounts refunded is particularly significant with respect to motor fuel sales taxes ("gasoline" taxes).

The general nature of the several major kinds of taxes shown separately in this report is suggested by their headings; explicit definitions appear in annual reports on government finances.<sup>1</sup> A major portion of the residual heading "All other taxes" includes selective sales taxes, such as those on public utilities, with the balance involving various kinds of imposts, including death and gift taxes, severance taxes, general corporation licenses, and miscellaneous other licenses.

## SOURCES OF DATA AND LIMITATIONS

The statistics in this report are based mainly upon three mail surveys, dealing respectively with State-administered taxes, locally collected property taxes, and certain locally collected non-property taxes. These surveys provided a basis for 97 percent of the collection amounts summarized in table 3. The remaining 3 percent (making up 7 percent of the local government total, and representing about one-third of sums shown for "All other taxes" but only very small percentages of other tax classes) was imputed by reference to findings of recent annual Bureau of the Census surveys of local government finances.

<sup>1</sup>More detailed figures on State tax revenue, with definitions of particular types of taxes, appear in the annual reports *State Government Tax Collections in 1986* and *State Government Finances in 1985*. State and local tax data on a fiscal year basis are reported nationally and by States in the annual report, *Governmental Finances in 1984-85*.

Most of the data in this report were gathered by mail canvass of appropriate State offices. In some instances data were compiled by trained representatives of the Bureau of the Census from official State records. The Federal data were obtained from *The Quarterly Excise Tax Report* and the *Treasury Bulletin* (monthly).

Data are subject to possible inaccuracies in classification, response, and processing. Every effort is made to keep such errors to a minimum through care in examining, editing, and tabulating the data.

Property tax collections since the first quarter 1983, as shown in table 3, are estimated based upon information from a revised stratified sample panel, effective in January 1975, containing 568 counties or county-type areas which are served altogether by approximately 6,200 local tax collecting agencies. The sample represents an expansion in the number of units canvassed as well as a change in the frequency distribution of these units by size resulting in more complete coverage. Figures concerning quarterly collections were requested by mail from all these agencies, and reports were obtained from 71 percent of them. Sampling variation was calculated for the property tax data thus developed from a sample survey covering 1972. The sampling variation of the 12-month aggregate was determined to be less than 1 percent. That is, the chances are about 2 out of 3 that the estimated yearly total differs by less than 1 percent (+ or -) from the results that would have been obtained from a complete enumeration. The quarterly estimates were found subject to a sampling variability of less than 2 percent.

## ACKNOWLEDGMENT

Appreciation is extended to the numerous Federal, State, and local officials who supplied basic data needed for the preparation of this report.

<sup>1</sup>Actual U.S. Customs plus an estimated amount from Puerto Rico.<sup>2</sup>Excludes occupation taxes.<sup>3</sup>Reflects change in timing.

Note: Because of rounding, detail may not add to totals. Verification of 12-month totals with government officials has resulted in minor revisions for prior periods. Prior quarterly data changes of less than 1 percent have been made without specific notation. See text discussion of "Sources of Data and Limitations." The current quarter data are preliminary.

<sup>1</sup>Local government collections are included with "Individual income."

Note: Because of rounding, detail may not add to totals. Property tax amounts are estimates subject to sampling variation. Of the nonproperty tax revenue shown, about 95 percent pertains to governments directly subject to survey for this report, with the remainder imputed mainly from findings of annual surveys for fiscal 1984-85. Verification of 12-month totals with government officials has resulted in minor revisions for prior periods. Prior quarterly data changes of less than 1 percent have been made without specific notation. See text discussion of "Sources of Data and Limitations."
